No 68

THE PEACE PARTY

HAVE HOPES OF SUCCESS.

Pressure being brought to bear on the
Czar to terminate the War.

Bulletin Special.

St. Petersburg, March 23.—The party in favor with the government, which is urging the emperor to indicate to the Japanese Russia's willingness to end the war if a reasonable basis can be reached, has been greatly encouraged during the last few days and an actual pacific proposal may be just ahead. The subject has consumed much attention of conferences at Taarskoe Selo, Czar's Grand Duke, supported by General Sakharoff, Minister of War, and Admiral Vellon, head of the Admiralty and the war party, are still bitterly opposed to peace under the present circumstances, but with this cessation of the war and marine the Emperor's ministers solidly favor this course, and the convincing arguments they offer are telling. French influences on the same lines are being supported by German opinion. That Emperor William has tendered his good offices seems to be confirmed, but if Nicholas decides to approach Japan, it will be through France.

Homeseekers Receive a Jar.

Bulletin Special.

Fort William, March 23.—Some excitement was caused at White River 250 miles east of Fort William by a collision between the third and fourth sections of a home seeker's special westward bound. The fourth section came upon the rear of the third section, but, beyond a shaking up of the passengers not much damage was experienced.

Conspirator Sentenced.

Bulletin Special.

Bellefleur, March 22.—The jury this evening after being out for three hours, returned to court with a verdict of "Guilty" against F. J. Reilly, charged with conspiracy in the bogus ballot box cases. Reilly was immediately sentenced to one year in prison at hard labor.

Quebec's New Cabinet.

Bulletin Special.

Quebec, March 22.—Today Hon. A. Turgeon announced Premier Parent's resignation, and said that Hon. L. Gouin had been entrusted with the formation of a new ministry. The probable composition of the new Cabinet is: Hon. L. Gouin, Premier and Minister of Public Works; Hon. A. Turgeon, Minister of Lands, Mines and Fisheries; Hon. J. C. McCorkill, treasurer; Hon. H. Archambault, attorney general; Hon. A. Tessier, president of the Council; Hon. W. A. Weir, solicitor general; Hon. R. Roy, speaker.

Telegraphic Briefs

Bulletin Special.

Winnipeg, March 22.—Arch-Bishop Langevin is now celebrating the tenth anniversary of his consecration.

Kingston, March 22.—Arrangements are under way for the affiliation of Queen's University with Oxford, so that in future no examinations will be needed for Queen's applicants for Rhodes Scholarship.

Winnipeg, March 22.—This afternoon all job printers in the city will walk out, the strike being caused by the inability of employers and men to agree on a scale of wages. The men demand an increase from \$18 to \$20, on account of increased cost of living. Employers say that, owing to eastern competition, they are unable to comply.

BRITAIN'S QUEEN

A GUEST OF PORTUGAL.

Cordial Reception tendered Queen
Alexandria by the King and People.

Bulletin Special.

Lisbon, March 23rd.—Queen Alexandria to-day was given a hearty welcome to Portugal. The harbor was crowded with gaily decorated steamers and yachts and the British Royal Yacht ascended the river amid volleying salutes. Two great golden galleys pulled by eighty boatmen in Medieval costumes of scarlet and gold took King Carlos to meet his Royal Guests. It transpires that a storm which compelled the Royal yacht to put in at Vio for shelter was so violent as to cause the Royal party the greatest anxiety and discomfort. Princess Victoria owing to weakness consequent upon her recent illness was completely unnerved. The heavy seas damaged the yacht somewhat.

Ontario Farmers Coming West.

Bulletin Special.

Toronto, March 22.—1400 people left on the homeseekers' excursion of the season, for the North West today. Four special trains of seven cars each carried the party. They left this afternoon and were followed by two trainloads of effects, including farm implements and live stock. The party consisted of Ontario farmers, young and old, removing to the West, taking their families with them.

GREAT SLAVE LAKE

Fort Resolution, Feb. 6th.—Since I wrote you last our weather has simply been beautiful, our coldest being 30 below and even when 20 degrees, it was mostly sunshiny weather with frequent north winds. Snow is about six inches in the woods. Rabbits and lynx are very plentiful and a great many are being trapped. Deer are still at a distance of two hundred miles from here. In consequence our butcher has been compelled to close his shop and go after them. Wolves are more numerous this winter than they have been for years, in fact they are getting very bold. Indians are dubious about camping out alone. They are playing smash with the buffalo, one very large bull buffalo being found not far from Fort Smith, killed by wolves. When they kill full grown bulls I think it high time the Government would do something in order to save the remaining buffalo. A premium set on the capture of each wolf would induce hunters to kill them. They have also killed and eaten several moose not far from this place up the Little Buffalo River.

Sergeant Field passed down to Hay River on a tour of inspection, and I think he found everything very satisfactory. He witnessed very severe weather between Resolution and Hay River, in fact the storm was one of the worst the natives had witnessed for some time. The Sergeant being an old hand at traveling in winter took every precaution and arrived here safe and sound without being even frost bitten. Very few would have been so fortunate. Our days are lengthening, we can see to work outside from 8 a.m. to 4 p.m., sunlight from 9.30 a.m. to 3.30 p.m. Lamps are not used so much just now either, two and a half hours less lamp light than January 1st, per day.

NEW BLOCKS STARTED

Operations have begun for the erection of a brick block next Rankin's jewelry store, to be occupied by the Perfect Clothing Co.

Men began this morning excavating the cellar of the new block to be erected by R. Lee at the corner of Jasper avenue and Second street. The building will be two storeys in height 50x50 and built of brick.

BULLETIN CO. Ltd.

THURSDAY, MARCH 23rd, 1905.

PREMIER HAULTAIN'S LETTER.

Ottawa, March 14, 1905.

A VICTIM OF THE OPEN LETTER HABIT.

Premier Haultain has contributed to the discussion now in progress in Parliament and in the country by a lengthy open letter addressed to Sir Wilfrid Laurier and dated March 11. Mr. Haultain takes up the questions involved in the bills from his own point of view and deals with them in a plain and business-like manner. It cannot be said that he has contributed anything very new to the discussion, but on account of his position his contribution is necessarily important.

SLOW AND NOT VERY SURE.

A notable feature of his letter is the date upon which it is written. The bills were introduced on February 21, and his protest against the educational clauses of the bills is dated March 11. The saying "Better late than never" is applicable to this case; but his position being as it is, the force and effect of such criticism as he has to offer is seriously weakened by the fact that although, as Premier of the Territories, and having a first knowledge of the provisions of the bills, it was his place to be first in the field with any protest he had to make, it was not until after the emphatic protest of the Minister of Interior, enforced by his resignation and the lingering discussion which has followed it, that Premier Haultain was able to arrive at sufficiently definite conclusions to warrant his placing them before the public.

TWO PROVINCES OR ONE.—HIS VIEW DISPUTED.

This, however, is altogether aside from the merits of his argument. He first deals with the question of two provinces versus one, and declares himself in favor of one as against the two; on the ground of there being no necessity for two, and because the duplication of provinces requires the duplication of governmental organization and therefore of expense. He concludes his argument on this point by the following sentence:

"I must, however, frankly state that this opinion is by no means unanimously shared in the Territories, and that the proposed action of the Government will not call forth much hostile criticism."

PROVINCIAL RIGHTS LIMITED BY FEDERAL JURISDICTION.

Regarding the constitutional side of the educational question, he at first pretends to hold that the two new provinces are entitled to be left to deal with the subject exclusive of federal control, but afterwards admits that the rights of the new provinces in regard to education are subject to the remedial section, or subsection 4, of section 93 of the British North America Act of '87. He says that the proposed provision of the Autonomy bill is an attempt to legislate in advance on this subject and "is an unwarrantable and unconstitutional anticipation of the remedial jurisdiction." These are long words and are no doubt, expertly used. They are quoted for the purpose of proving conclusively, by Mr. Haultain's own argument that the exclusive right of the new provinces to legislate in regard to educational matters is expressly limited by the provisions of subsection 4 of section 93 of the British North America Act of '87, and that therefore a limitation of the right of the provinces to legislate regarding education is not necessarily an invasion of provincial rights; these rights being only such as are accorded under the British North America Act. The nature of the limitation and the question properly at issue, not the bare fact that there is a limitation.

WHAT HE WOULD HAVE DONE.

In evidence of his objection to the fastening of separate schools upon the Territories he quoted a section from the draft bill which his Government submitted to the Dominion Parliament in 1903. The section quoted is simply declaratory and is in effect parallel to clause 2 of the Autonomy bill and provides expressly that the provisions of the British North America Act of 1867 shall be applicable to the province to be created in the same way and to the same extent as they apply to the several provinces of Canada and as if that province had been one of the provinces originally united by the said Act. No exception of section 93 is made and therefore its limitations would have been recognized under Mr. Haultain's own proposal, as they are under the proposal before Parliament, to which recognition Mr. Haultain now says that he objects.

PROVINCIAL RIGHT TO CONTROL OF PROVINCIAL MONEY.

Up to this point Mr. Haultain to say the least, leaves plenty of room for argument, but he takes up a new stride when he says:

"I wish to lay great stress on the fact that this is a purely constitutional question and is not concerned in any sense with the relative merits of any system of education. . . . The first observation I have to make upon subsection 3 of section 16 is that it is a direct interference of Parliament with the right of the province to do what seems best with its own."

This is absolutely incontrovertible and requires no constitutional argument in its support.

AS TO LAND GRANT ENDOWMENT

He draws attention to the fact that his subsection practically repeals the section of the Dominion Lands Act which provides that the revenues arising from interest on the price of school lands shall be paid to the Government of the province to be distributed by the provincial Government for purposes of education "in such manner as it deems expedient."

SHOULD HAVE BEEN MORE FULLY CONSULTED.

He concludes his argument on this point as follows, "It seems to me that a great deal of this trouble might have been avoided had we been afforded an opportunity of discussing these proposals, and I feel that I must place on record the fact that we are not responsible for the situation."

A BIRD IN THE HAND WORTH SEVERAL IN THE BUSH.

Regarding the land grant allowance, he points out some errors in the calculations made, and very mildly criticizes the amount of the grant, concluding as follows:

"But I am not unwilling to admit that an immediate income increasing with population and certain amount may in the long run prove quite as satisfactory as any probable net income resulting from local administration of the public domain."

AS TO IRRIGATION.

He thinks the question of irrigation should be placed entirely under provincial control as experience has shown that the administration must be essentially local. If his contention is correct this is a matter that can be provided for later on by negotiation between the provincial and Dominion Governments, probably better than at the present time.

A QUESTION OF COURTESY.

The concluding paragraph of the letter sets at rest a question that was attempted to be raised both in Parliament and out previous to and during the last election campaign. He says:

"In concluding this letter, I beg to express, on behalf of the North-West Government our high appreciation of the attentive and courteous consideration extended to us by yourself and the other members of the sub-committee of council throughout the whole conference."

COMMITTEE'S REPORT

RE AUDITOR'S REPORT.

Text of the Report Submitted to the City Council by the Finance Committee.

To the Mayor and Council of the City of Edmonton:

Gentlemen:—
Your Finance Committee beg to make the following report as a result of the investigation into the Auditor's report which has been referred to them.

1st. That we are of the opinion that the Auditor should be tendered a vote of thanks for the careful and we believe sincere and thorough way in which he has made his preliminary report.

2nd. That in our opinion the books are being kept in a neat and careful way, but that there is no doubt that they require re-systematizing at the present time.

The Capital Account as at present kept we find to be somewhat difficult to understand, and are of the opinion that credit revenues balances would be better kept in a reserve fund.

The details of the Real Estate transactions should be kept in a Real Estate book, and we would also recommend that Real Estate values should not be advanced by the secretary-treasurer, as that is a matter which should only be done by the council, and then only with very great caution.

Re Sinking Funds. These are probably in excess of the amount necessary at the present time, and the Auditor has promised to make a statement showing the exact amounts that these should be in each case, and we presume that that matter will therefore be rectified.

Re Sewerage Debenture Bonds. From the secretary-treasurer's explanation it would appear that the loss on one set of Debentures was offset by a gain in another set of debentures, proceeds of which belong to the same account.

Re Cash Book and Vouchers. We find that the secretary-treasurer has already taken steps to carry out this recommendation.

Re the accounts already wrongly charged to the different departments. The secretary-treasurer informs us that he is adjusting this matter as far as possible and we are of the opinion that this matter of charges should be carefully guarded in order that we may arrive at a knowledge as to whether our municipal enterprises are on a paying basis or not.

Continued on page six

BECAUSE PROPERLY CURED

Y Pharaohs have been called a "Health cigar" and this is why: Every leaf of tobacco I work into Pharaoh is absolutely free of "gum."

You must know that a "gummy" tobacco will make a poor smoke and act injuriously on the throat and stomach. The gum, dissolved by the heat of combustion, is drawn into the mouth—becomes mixed with the saliva and finally reaches the stomach.

The membrane that lines your throat and stomach is pretty tough—but it won't stand the harsh, irritating action of this dissolved gum.

You'll have sore throat if you smoke the "gum" cigar—you'll have heartburn, indigestion, and a disagreeable taste in your mouth from an injured stomach.

With every particle of gum properly "sweated," cured and aged out of the leaf I use as filler for my Pharaoh, I can guarantee you a pure, cool, sweet, fragrant smoke—free from disagreeable tastes and injurious actions on the inner man.

SECOND READING

OF THE AUTONOMY BILLS

Mr. Borden speaks for himself only and introduces a transparent amendment.

Bulletin Special.

Ottawa, March 23.—The second reading of the autonomy bills took place yesterday. Laurier, Borden and Fielding spoke. Spruie has the floor for today. Borden said he spoke for himself only, leaving his party free, and admitted that if the North West was already a Province, the constitution would compel a continuance of the principle of separate schools, but argued that as the territories were not yet actually a Province the educational limitations of the British North America Act did not apply. He closed with an amendment as follows:

"The legislature of such Province subject to and in accordance with the provisions of the British North America Acts of 1867 and 1886 is entitled to and should enjoy full powers of Provincial self government including power to exclusively make laws in relation to education."

While the amendment expresses the opinion that the educational restrictions of the British North America Act should not apply, it carefully refrains from stating specifically whether or not they actually do apply, the evident intention being to provide a form of words for which men of various views could vote without committing themselves to anything except opposition to the government.

AGRICULTURAL INSTITUTE MEETINGS.

There was a small attendance of farmers at the Agricultural Institute meeting in the city yesterday. The meetings are in charge of Messrs Standish and Macrae prominent agriculturists from Ontario. A stock judging school was conducted at the Massey-Harris warehouse when examples of the lighter classes of horses and dairy cattle were shown. The heavier classes of horses and beef cattle will be taken up to-day. A public meeting was held in Robertson Hall last evening addressed by the judges. The attendance was not large. Another meeting will be held in Ross Hall, Strathcona, this evening.

Fitzgerald (hereinafter referred to as the firm) has been dissolved this 4th day of March, 1905 by mutual consent. All accounts owing the said firm are payable to the said Arthur Levasseur, who will also pay, all accounts owed by the said firm. Signed,
ARTHUR LEVASSEUR,
MAURICE J. FITZGERALD,
dy 54, 1f.

GOOD PROGRESS

IN THE RAILWAY NEGOTIATIONS

Matters left for the present in "status quo," pending the further consideration of the Council.

Negotiations between the city council and the G.T.P. officials have been temporarily suspended and the railway men went south today. This does not mean that the deal is off or that hostility has arisen between the contracting parties. The draft agreement proposed by the visitors is understood to have been naturally framed for the safe guarding of the companies interests to the broadest degree and to modify the portions of this which might infringe on the rights of the city was the business of the council. While nothing definite has been given out for publication, Mayor MacKenzie when seen this morning seemed satisfied that this purpose would be attained and an arrangement mutually satisfactory be made. The council however, felt that the matter should not be decided in haste, but that every care and consideration should be given to the obligations and concessions of the proposed agreement. A revised agreement, it is said, was prepared embodying the general views of the council, but this will probably be overhauled and amended in subsequent sittings. Mr. Morse recognized the reasonableness of the council's desire for time to consider matters and the bargain was left temporarily in this state, it being understood that a subsequent meeting will take place at which the agreement as completed will be signed.

NEWS "THAT IS NEWS"

Calgary Herald: The following interesting letter is self-explanatory: Blenheim Lodge, Waterton Road, Guildford, February 18th.

Editor Herald: Dear Sir, allow me to call your attention to the following delicious gem of information, which appeared in yesterday's London Daily Mail:

TERRIBLE JOURNEY.

2,400 Miles With a Mad Missionary. Despatches received at Queenstown last night from Winnipeg, [Manitoba] recorded the terrible journey of a Canadian Mounted Policeman named Field with a violently insane missionary.

"From Edmonton, which is the most northern railway station in the Northwest Territories and is within the Arctic Circle, the policeman conveyed his charge through the blinding snowstorms which swept the prairies. The journey to the asylum at Brandon lasted fifty-three days. The missionary, who had gone mad in the great solitude, became violent soon after the journey had begun. The officer had to strap him to the sleigh, but he refused to eat, and scratched, and attempted to bite.

When the journey of 2,400 miles was completed Field was so exhausted that he had to be placed under medical treatment."

I wrote to the editor of the Mail, suggesting that he must have derived the item from the lunatic, but for some reason or other he did not see his way to publish my communication. Yours, etc., G. E. GREGAN.

HIGH SCHOOL LITERARY.

The last meeting of the high school literary society for the term was held in the school room of All Saints Church on Wednesday afternoon.

The President, Mr. Ronald McDougall, gave a short address after which the following program was rendered.

Song—Mac, Dawson.
Recitation—Fred Brandon.
Vocal Solo—Miss Jessie Potter.
Instrumental—Misses Walker, Richardson and Brewster.
Recitation—York Elayney.
Instrumental—Miss Ruby Beals.
Quartette—Messrs. Parney, Dawson, Walker and Knott.
Address—Mr. Rae.
Instrumental—Miss Lazelle Blayney.

A debate then took place on the resolution that "The study of Mathematics gives a better training than the study of literature". The affirmative was upheld by Miss Rose Wooster and Miss Margaret Frazer and the negative by Messrs. Clyde Sutherland and Ernest Shields. After a few remarks by the critic, Mr. R. H. Johnston the decision was given to the affirmative by the judge Mr. Ellis.

"Not much! its right there on the north corner of 2nd Street and Jasper Avenue west. You know, Bill, I believe, the WEE STORE is going to run the Hudson Bay pretty hard."

"You bet your boots it is."

THE WEE STORE
For Fruit, Confectionary,
and Tobacco.

WANTED.

GOOD AGENTS FOR THE
Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

CHEAP FARM LANDS

Out of 5000 acres of carefully selected land, you have now an opportunity to purchase 2500 acres of choice farm land at exceedingly low prices. These lands are nearly all close to surveyed lines of railroads and some in the immediate vicinity of proposed railway stations. This offer will be for

ONE WEEK ONLY

and is probably the last chance to buy cheap land in Northern Alberta. For any one looking for a gilt edge investment with every prospect of a big increase in value in the near future, this is a golden opportunity. For particulars apply to Short, Cross, Biggar & Ewing, or the owner

COMMITTEE'S REPORT.

Continued from page three

Re Receipt Forms. We are strongly of the opinion that printed numbered receipt forms made in duplicate, should be used, and that none other than these should be recognized as valid, as we are of the opinion that they will be found to save labor as well as minimize the liability of errors.

3rd. Mr. Kinnaird in his reply to the Auditor's report agrees with the Auditor that the time has arrived when the present system must be enlarged, and in some cases altered and adjusted to meet the requirements of a growing city, and in most of the main points at issue they practically agree as to the means by which this should be done, although differing in some of the minor details in working out the system to be adopted. This is only to be expected as all systems of accounting are subject, more or less, to the individuality and to the point of view of the book-keeper.

As Mr. Kinnaird points out, he has been, prior to the removal to the new city office, badly handicapped for want of room to employ additional office help, often having to work at night in endeavoring to keep up with the largely increased amount of office work. This we all know to be a fact, and we would therefore make the following suggestions:

A. That definite office hours should be adopted, say from 8 a.m. to 6 p.m., and that the office hours adopted should be posted in a conspicuous place near the entrance to the General Office.

B. That the shorthand clerk should receive extra pay when required to attend the meetings of the council.

C. That in our opinion the time has arrived when the council should take into consideration the advisability of engaging a competent accountant who is versed in municipal accounting, with the object of him taking over the position of secretary-treasurer and who would thus relieve Mr. Kinnaird of details connected with that office, thus enabling him to devote his time to the important and growing duties of finance commissioner, for we are of the opinion that with the increasing volume of business necessitated as well from the growth of the city, as from the new municipal ownership enterprises, the position of secretary-treasurer is well worthy of the whole time and attention and energy of any man occupying that office.

D. That in our opinion the books should be closed for 1904 without any further delay, and the balance sheet brought down as soon as possible. Should the results obtained not appear satisfactory to the Auditor and the council we would suggest that a fully qualified and certified accountant who is an expert in municipal accounting, be engaged to submit a balance sheet showing the correct entries that he would recommend and the results obtained thereby, and to make a full report on the condition of the books in general.

All of which is respectfully submitted.

(Signed) W. H. CLARK,
Chairman.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding "miners' certificates" may obtain entry for mining locations.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,500 feet, by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres. The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining. Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or beach, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings and extends back to the base of the hill or bank but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000. Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August, in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notices and paying fee of \$2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent, is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted.

A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent, of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all base rentals, quartz and coal, and provides for the withdrawal of unopened land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the North-West Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may receive for an individual or company having machinery on the land to be prospecting, an area of 640 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

Department of Interior, Ottawa, September, 1903.

THE planters from whom I buy my tobacco in Cuba are the most expert tobacco growers in the world. They keep the plant nipped back carefully—free from suckers and only leaves enough on the plant for it to properly mature and nourish.

In this way the good of the tobacco, the proper qualities to make it excellent smoking, are evenly distributed all through the plant. Thus the leaf I secure for my Pharaoh filler is perfect—an even smoker—palatable and delicately odorous.

WILL SUPPLY ELECTRIC POWER.

In accord with the instructions of the city council, the city commissioners are advertising their intention of operating the electric lighting plant after June 1st, during the day time for the purpose of supplying light and power to those requiring it. The matter was discussed at length at a recent meeting of the council when the general opinion seemed to be that while the service might not immediately pay for itself there was a large demand ahead for the supply of electric energy which could only be developed when the power was ready to be delivered. It was thought best to begin the service as early as conveniently possible and before other arrangements for power have become permanently made by those who might now become patrons of the city.

GAZETTE NOTICES.

The current issue of the N. W. T. Gazette contains notices of the following appointments:

J. Reid, Kansas, Alta. Justice of the peace and notary public.

When Sickness Comes

there's always a need for Armour's Extract of Beef. It keeps up vitality and prevents excessive loss of flesh and strength. Its rich beefy flavor makes beef tea that is as appetizing as it is delicious and stimulating.

Sold by all Grocers and Druggists.

ARMOUR LIMITED, TORONTO.

Sole producers and shippers for Canada.

Lever's Y-Z (Wine Head) Disinfectant Soap powder is a boon to any home. It disinfects and cleans at the same time.

Nine Nations

Now Use LIQOZONE. Won't You Try It—Free?

Millions of people, of nine different nations, are constant users of Ligozone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know some one whom Ligozone has cured.

If you need help, please ask some of these users what Ligozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Ligozone; then let us buy you a full-size bottle to try.

We Paid \$100,000

For the American rights to Ligozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Ligozone destroys the cause of any germ disease.

Ligozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the

most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma, Allergic Anemia, Bronchitis, Blood Poison, Bright's Disease, Bowel Troubles, Canker-Sore, Consumption, Cough-Croup, Cystitis, Diarrhea, Dropsy, Eczema, Erysipelas, Hay Fever-Influenza, Kidney Diseases, La Grippe, Leucorrhea, Liver Troubles, Malaria-Nerve Pain, Measles, Menstrual Pain, Piles-Pruritus, Rheumatism, Ringworm, Scabies, Skin Diseases, Stomach Troubles, Syphilis, Tetanus, Typhoid, Typhus, Venereal Diseases, Whooping Cough, Yaws.

Fever—Gall Stones, Gout—Heart Disease, Rheumatism, Stomach Troubles, Tension—Ulcer, Varicose Veins, Women's Diseases.

All diseases that begin with fever—all infectious diseases—all contagious diseases—all the results of impure or poisoned blood. In chronic debility Ligozone acts as a vitalizer, accomplishing what no drug can do.

50c. Bottle Free.

If you need Ligozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Ligozone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Ligozone costs 50c. and \$1.

CUT OUT THIS COUPON

For this offer may not appear again. Fill out the blanks and mail it to The Ligozone Company, 125-126, Wabash Ave., Chicago.

My doctor is _____

I have never tried Ligozone, but if you will supply me a 50c. bottle free I will take it.

N. LECIERC, Prop.

EDMONTON ALTA. CANADA
POPULATION, 7,500
CITY GOVERNMENT:-
 Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.
Conveniences:- Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.
Board of Trade:- President, J. H. Morris, Secretary, F. E. Tims.
Immigration Officer:- C. W. Sutter.
Educational Institutions:- Public and separate schools, high school, Alberta College.
CHURCHES:- Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.
TRAIN SERVICE:- Leaves for Strathcona 7:45 and 15:30. Arrives from Strathcona 9:15 and 11:50.

LOCAL

-Train on time.
 -Drops:-Fair to-day. Sleet or rain in some localities on Friday.
 -Store's hardware store has been improved by a fresh coat of paint.
 T. Houston left for the east this morning.
 -The annual meeting of the fifty club was held last evening.
 -John Owens brought in a car of general purpose horses from Calgary last evening.
 -The polo club met on Monday evening last, elected officers and made arrangements for the coming season.
 -The council of the board of trade met yesterday and recommended the appointment of E. T. Fisher, secretary. The annual meeting of the board is being held this afternoon.
 -The choir of McDougall chapel, gave a concert at Belmont last evening. A large audience turned out. The program was entirely furnished by the choir. Refreshments served by the ladies of the congregation. The proceeds were in aid of the local Methodist congregation.
 -Mr. Morse, of the G. T. P. party, was more enthusiastic over the appearance and prospects of the city. To several members of the city council he expressed his belief in the great future which awaited the district and its municipalities, even going so far as to say that it might get surprise Whippers.
 -One of the four first class bathhouses now under course of construction for the British Government is to be called the Dominion. It has been a custom for some time for the county or district after which a bathhouse has been named to take up a subscription of one shilling per head of the population to provide a public library or such other townships as may seem needed. A fund for this purpose regarding the Dominion has been inaugurated by the Toronto club, and subscriptions of 25c. and under are accepted. The Imperial bank are receiving subscriptions at the local branch. No subscription of more than 25c. will be accepted.
 -Calgary Herald: A tragic story comes from the north fork of High River. On Friday last about four o'clock in the afternoon, John J. Sullivan, one of the oldest residents of the locality, left his home on horseback, presumably to look for some stray cattle. When night came he did not come home, and his family grew anxious. Early Saturday morning a search was begun, but it was not until about two o'clock in the afternoon that his horse was noticed about a mile west of the ranch, with saddle reversed. No sign of the rider was visible. Mrs. Sullivan on Sunday morning sent a message to J. J. Sullivan, who organized a large party, and began a systematic search. In the afternoon about 4 o'clock, the dead and mangled body of Mr. Sullivan was found near a little creek. One hand was missing, and it was found later about 50 yards further on.

Mr. J. W. Smith, J. P., and wife, who have been staying at the Grand View for the last few days, left this afternoon for their farm at Edison.

MARRIED

Rean-Kelly:-On Wednesday, March 22nd, by Rev. D. G. McQueen, at the residence of the bride's father, Su. J. Rean to Jean Baird Kelly, second daughter of Jas. Kelly of Ray.
